

**HOPE** is een werkwoord. En inspanning is een van onze meest krachtige instrumenten voor verandering. De kern van de groepstentoonstelling HOPE is een optimistische: dat kleine veranderingen het grote verschil kunnen maken. De hoopgevende werken zijn ontworpen door alumni en studenten van de Design Academy Eindhoven-afdelingen die door curators Ilse Crawford en Oscar Peña worden geleid. *Hope is a state of action. And effort is one of our most powerful catalysts for change. There is an optimistic message at the heart of our group exhibition on HOPE: that small changes can make big differences. The hopeful projects are designed by students, past and present, from the Design Academy Eindhoven departments led by curators Ilse Crawford and Oscar Peña.*
