

De tentoonstelling viert de vele partners die hebben bijgedragen aan de transformatie van de voormalige marechausseekazerne en naastgelegen loods in een Home of Design. Een herbestemming die werd gerealiseerd vanuit de voortdurende dialoog met toonaangevende en veelbelovende designers en hun stakeholders. *The exhibition celebrates the many partners involved in the transformation of the former military police barracks (Kazerne in Dutch) and adjoining industrial warehouse into a Home of Design. A repurposing that was established through the ongoing dialogue with leading and promising designers and their stakeholders.*
