

**VACANCY**

## UNIQUE CONCEPT

–Have you heard of Kazerne, in the heart of design city Eindhoven, already gaining rave reviews in the New York Times and winner of the Entree Hospitality Awards in the category ‘most trendsetting concept.’

In our monumental military police barracks and adjoining industriale warehouse, guests enjoy a 2.500 square meter design exhibition with a bar, a bar/ bistro with 100 couverts, a multifunctional meetingroom (also usable as theatre and symposium space) and a design shop.

When the heritage site has been completely renovated at the end of 2018, another 8 exclusive hotel rooms are added, as well as a 30 couverts fine-dining restaurant, an exclusive members club and a couple of smaller multifunctional spaces.

Our team is enthusiastic, creative, international and ambitious. The atmosphere is cosmopolitan with a raw artistic edge, matching our international ambitions.

## INDEPENTLY WORKING COOK (M/F)

*At Kazerne in Eindhoven.*

**A party of 100 couverts in one of the event spaces, 30 in the other and 80 guests in the à la carte restaurant. Everything homemade, robust and vegetable-oriented, with an Italian touch. Social colleagues, who would do a lot for each other. Does this sound like your ideal workplace? Then we are looking for you!**

Our new colleague:

- loves to cook;
- is an enthusiastic personality and a real team player;
- speak Dutch or English;
- is more than happy to contribute to a special experience for our guests.

An open mind, flexibility and relevant experience are a must. People with a personal interest in culture and design have an advantage.

Of course we offer a suitable salary and excellent benefits, with career opportunities. The working hours are flexible, in line with our daily opening hours from 08:00 - 00:00 hours.
